Anastassia Sommer

Front End Developer | React Developer | JavaScript developer

Lillestrøm, Viken, Norway

Summary

Hello! I'm Ana , a self-taught Front End Developer with a passion for technology.

Skilled in HTML, CSS, Tailwind, Bootstrap, React, JavaScript, and proficient in design tools like Figma and Adobe xD.

Now, armed with front end professional certificate from NorOff School of Technology and front end development certificate from Scrimba, I'm delving into full stack development.

In my professional capacity as an application specialist at a medical software company, I seamlessly blend my medical background with my newfound tech skills. I play a pivotal role in my team by articulating complex functionalities and crafting intuitive design prototypes using tools like Figma. It's incredibly rewarding to leverage my diverse experiences to contribute meaningfully to the development of innovative healthcare solutions.

Passionate about technology, dedicated to continuous growth, and driven by a desire to make a positive impact—this is who I am, and I'm excited to share my journey with you.

Experience

Omda

Application Specialist

May 2023 - Present (10 months)

Oslo, Norway

As Partus Application Specialist I work both with product management, software development and customer delivery projects:

- I participate in functional clarifications with the developers and testers
- Also participate in manual software testing and documentation.

- Work with operational issues in communication with the customer, where I act as application support.

Akershus universitetssykehus
